SUMMARY

Operations and data intelligence professional with 4.5 years of experience evaluating policy compliance metrics, identifying process improvements, and managing recurring reporting, forecasting, and client-facing presentation deliverables. Skilled at analyzing program data to identify trends and opportunities, coordinating across operational teams, and developing standardized best practices.

PROFESSIONAL EXPERIENCE

Data Scientist I

Worldpay / Washington, D.C. (remote) / Dec 2023 - Jan 2026

- Reviewed and audited activity against negotiated service level agreements to confirm compliance with program terms, catching discrepancies that supported \$200M+ in annual client savings
- Collaborated with internal and external client-facing teams to manage end-to-end data workflows, keeping records accurate, current, and audit-ready for recurring stakeholder reporting
- Processed and reviewed incoming routing update requests from internal teams and external clients, confirming each met policy requirements before changes were updated
- Analyzed program performance against negotiated volumes to identify trends and compliance gaps; prepared reports and recommendations for client operations teams

Key Skills: Process Compliance, Data Accuracy & Auditing, Stakeholder Reporting, Cross-Team Coordination, SQL

Transit & Rail Data Scientist

Vanassee Hangen Brustlin / Washington, D.C. / Sept 2022 - Dec 2023

- Produced standardized KPI reports and external presentations, translating performance data into clear updates that supported client decision-making
- Built and maintained a suite of internal data visualization applications used by clients on an ongoing basis, ensuring reliability and ease of use
- Coordinated across network data, ridership records, and demographic sources from multiple teams to keep client deliverables accurate and on schedule

Key Skills: Client-Facing Reporting & Presentations, Cross-Source Coordination, Data Management, SQL

Data Scientist

Ohio Kentucky Indiana Regional Council of Governments / Cincinnati, OH / May 2021 - Sept 2022

- Identified a gap in regional safety reporting and created a standardized methodology to resolve the issue, sharing the best practice that was adopted by 8 counties
- Presented methodology and findings in person to regional stakeholders and at the user! Conference 2022, receiving recognition for the closing the gap
- Documented and automated reporting workflows to ensure consistent, accurate, and reproducible results across multiple jurisdictions

Key Skills: Process Documentation, Standardized Reporting, Cross-Jurisdiction Coordination, Data Accuracy

EDUCATION
